PINK CUSHION

At the Century of Progress Exhibition in Chicago this beautiful new Chrysanthemum created sensational interest. The plant is dwarf and spreading in growth, very hardy, and far more prolific than any other variety. When well established, single plants of Pink Cushion have been known to have 1500 flowers open at one time. In color it is of a very pleasing rose pink. Pink Cushion produces its first flowers in late August and continues to be a mass of blazing glory until late frost. We consider Pink Cushion the finest outdoor Chrysanthemum; for the florist it makes an exceptionally fine pot plant. You will profit by offering Pink Cushion to your trade in 1938.

POT PLANT VARIETIES
